## GREETINGS

Ladies and Gentlemen,

As President of the Brazilian Military Sports Commission and head of the Brazilian delegation, I welcome the military delegations and guests participating in the 52nd World Military Naval Pentathlon Championship.

In 1949, a Sports Officer of the Italian Navy, observing the need for improving sailors' physical preparation on board ships, and with the purpose of developing discipline, speed, and combat skills performed at sea, established a specific training program.

In the 1953 General Assembly, after competitions held by the Italian Navy, it was proposed the inclusion of this modality by the CISM. In the same year, a test event was held in Venice with the presence of eight delegations. In 1954, the first edition of the World Military Naval Pentathlon Championship took place in Livorno, Italy.

Because of this legacy, today we begin another edition of this championship aboard the Physical Education Center Admiral Adalberto Nunes – CEFAN.

Thus, we thank the efforts of each delegation, their chiefs of mission, coaches, and especially the athletes for their illustrious presence in this championship. Our special thanks to CEFAN for the impeccable support, without which it would not have been possible to carry out an event of such magnitude.

Finally, I urge all participants to keep motivated by the sport, being vectors of its dissemination and to enjoy every experience in the competitions and in the daily interaction with the other delegations. I also wish them to enjoy every moment spent in the wonderful city, Rio de Janeiro - Brazil.

Friendship through sport.

Good luck to you all!

**Roberto Rossatto**  
**Vice Admiral**

## GETTING TO KNOW RIO DE JANEIRO

Its natural beauties, culture, history, and some unique characteristics make the Wonderful City the main touristic destination in Brazil.

Known around the world for the richness of its features and influences that go back to different concepts and periods, the architecture of Rio de Janeiro mixes the heritage of Portuguese colonial projects, the collective modernist avant-garde and contemporary aesthetic exuberance.

In the city center, the architectural complex of Praça XV, the large Museum of Modern Arts and futuristic buildings, such as the Museum of Tomorrow, stand out.

In South Zone, from Posto 1 (Leme) to Posto 12 (Leblon), there are 8 kilometers of coastline with the most famous and exuberant beaches in Rio. It's a local custom to applaud the sunset from Pedra do Arpoador, such is the beauty of every dusk.

In the midst of this fantastic scenery, the enchanting fauna and flora of the Botanical Garden, Sugarloaf Mountain and Tijuca Forest, with its more than 200 hectares of Atlantic Forest.

And from the top of Corcovado Hill, with open arms, blessing and protecting the people of Rio, the art-déco statue of Christ the Redeemer, which portrays Jesus Christ.

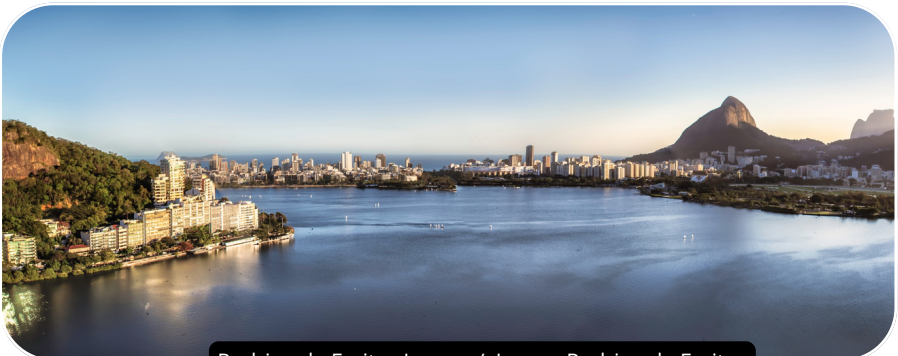

Live these unforgettable experiences in Rio de Janeiro during the 52nd CISM World Military Naval Pentathlon Championship.
